

UNIVERSAL DIGITAL MOISTURE METER (PRO)

Features:-

- Confirms to IS: 8824 with upto date amendments.
- Mild Steel Body Molded Body.
- MS Steel Test Cup .
- Polydome switches keypad .
- Interactive UI , easy to operate .
- Direct Reading , no need for mathematical calculations .
- Calibrated for 60 Crops.
- Last Reading Recall , Averaging facility available in MENU button.
- Pressure and Vol cup information displayed on LCD Display.
- Manual On/Off with on off button.

MODEL - PB-2020

Specifications:-

1. Type
 2. Principle of Measurement
 3. Sensor
 4. Measured Parameters
 5. Calibration
 6. Range
 7. Accuracy
 8. Display
 9. Resolution
 10. Temperature Sensor
 11. Temperature Measurement Range
 12. Operating Temperature
 13. Data Storage
 14. Real Time Clock
 15. Humidity Measurement
 16. Keypad
 17. Hot Keys
 18. Error Correction Facility
 19. Power Supply
 20. Data Transfer
 21. Weight
 22. Dimensions
 23. Mobile App & PC Software for data printing
 24. Receipt Printing
 25. Packing
- Benchtop/Table Model with Mild Steel Body/Compression Unit
 - Resistance/Conductivity Measurement
 - Cup Type
 - Moisture, Room Temperature, Humidity
 - Manual and Automatic Both
 - 3.5 - 40%
 - +0.20%
 - 2x16 col LCD
 - 0.1
 - PT-100 / LM335 Optional
 - Automatic
 - 0-60 °celsius
 - 200 readings
 - Inbuilt
 - Optional
 - 9 Keys membrane keypad with polydome switches
 - 3 user programmable hot keys
 - Inbuilt alongwith new commodity calibration
 - 9 volts dc through adaptor or 1.5 V x 6 dry cell
 - Through RS- 232 Port to Printer and Personal Computer
 - 12 Kgs Apprx.w/o accessories
 - 41x33x33 (LxBxH) cms apprx.
 - Through iSmart Software.
 - Through Serial Printer for printing Receipt Data (Party Name, Lot No , Date, Time, Commodity Name , Moisture % and Depositor Name)
 - Wooden Box supplied with 3 Volume cups , Adaptor, Ratchet Handle, Dust Cover and Operation Manual
